

LAYSS KHEIR

Full Stack Web Developer

+96176529859 @ laysskheir@gmail.com <http://laysskheir.vercel.app> Lebanon

SUMMARY

Self-taught software engineer with a passion for web application development. Proficient in building dynamic and responsive web applications using React.js and Next.js with TypeScript for frontend development, coupled with Django and Python for backend solutions. Experienced in creating robust, scalable, and user-friendly web applications.

EDUCATION

Bachelor of Business Administration (BBA) in Information Technology

University: Lebanese university

2019 - 2022 Tripoli, Lebanon

PROJECTS

Waitlist

<https://wait-art.vercel.app>

- Engineered an intuitive platform enabling custom waitlist forms in 20 seconds, enhancing lead capture and product anticipation. Resulted in streamlined processes, optimized conversion rates, and heightened client launch excitement.

E-commerce

<https://great-iota.vercel.app>

- Developed a modern e-commerce solution using Next.js for the frontend and Django for the backend. Leveraged Redux Toolkit and TypeScript for efficient state management and type safety. Integrated Celery for asynchronous task handling and Docker for streamlined deployment.

Coding challenges

<https://python-front.vercel.app>

- A comprehensive learning platform for mastering Python programming through tutorials, lessons, and coding challenges. Engage with interactive content, track your progress, and collaborate with a community of learners.
